

Actually, I'm pretty good on coffee. What I AM a bit short on is server space where this website lives. NOT complaining! I do this website stuff as a hobby and provide it for free to those that can make good use of it. But there IS an expense associated with maintaining web server space, domain ownership, and bandwidth. So, if you are so inclined, I wouldn't turn down a few dollars here or there. No set amount. Whatever you think is right.

I don't do PayPal! They have stolen \$\$ from me two different times and it simply isn't worth the risk any more.

So, for my US friends, I use Zelle 

And for international fund transfers I have adopted Wise 

If you are already a Zelle user, you can simply scan the QR code below and proceed to send whatever you wish.

If you aren't already a Zelle user you can email with your preferred email address and let me know the amount you wish to donate. I would then reciprocate with a request for payment in the amount you specify. Simply follow the links from there.

For our international friends, I can currently accept either Euros or GBP. I can add other types to the list on a case by case basis. Simply scan the Wise QR code on the right and follow the prompts. Thank you all so much!
